PREDGOVOR

Po štirih letih je pred nami nova številka Virov, posvečena ordinacijam duhovnikov. Prvi dve knjigi (2010, 2012) na to temo sta predstavili ordinacijska protokola goriške nadškofije (1750–1824), naslednji dve (2013, 2016) pa ordinacijska protokola ljubljanske (nad)škofije (1711–1824). Pričujoča številka Virov predstavlja logično nadaljevanje objav ordinacijskih zapisnikov za slovensko ozemlje, obenem pa s to knjigo tudi izpolnujemo obljubo iz leta 2013.¹

Ob objavi tokratnega ordinacijskega protokola se posebej zahvaljujem:

- Arhivskemu društvu Slovenije in dr. Zdenki Bonin, urednici zbirke Viri, ki sta mi omogočila to izdajo,
- dr. Ani Lavrič in dr. Lilijani Žnidaršič Golec za pregled vsebine in mnoge koristne nasvete ter
- vsem drugim, ki so mi pomagali z nasveti in napotki.

¹ Prim. Volčjak 2013, str. 8.

UVOD

Po štirih letih premora je tokratna številka Virov ponovno posvečena ordinacijskim zapisnikom. Izjemno gradivo, ki ga hrani Nadškofijski arhiv v Vidmu (Archivio storico diocesano di Udine), je slovenski javnosti deloma že poznano, saj so bili nekateri deli objavljeni v publikacijah Arhiva Republike Slovenije z naslovom *Evidentiranje arhivskega gradiva v tujini*.² Precej podatkov o navedeni temi nam je uspelo zbrati tekom vsakoletnih evidentiranj arhivskega gradiva v tujini, nekaj pa tudi v času privatnih obiskov omenjenega arhiva.

Pričujoča številka Virov ne prinaša klasične objave ordinacijskega protokola v obliki, kot smo jo poznali do sedaj, saj obravnavano gradivo ne obstaja v obliki knjige. Videmski nadškofi so namreč podatke o preizkusih in podelitvah kleriških stopenj zapisovali na posamezne liste, ki pa jih kasneje niso zvezali v knjige, kot npr. v Celovcu, Gorici, Ljubljani in še kje, temveč se hranijo v prvotni obliki. Urejeni so po posameznih letih in hranjeni za določena obdobja (leta) v posebnih mapah ter odloženi v arhivske škatle (buste).

Opozoriti velja še na eno razliko. Tokrat ne objavljamo arhivskega vira v celoti, temveč zgolj izpis tistih podatkov, ki se nanašajo na ordinande z ozemlja, ki so ga podaniki Beneške republike, med katere so patriarhi sodili, imenovali *a parte Imperii*. Gre za ozemlje oglejskega patriarhata na teri-

toriju Svetega rimskega cesarstva do reke Drave, kamor oglejski patriarhi vse od leta 1628 uradno niso imeli več vstopa. Časovno knjiga obsega 18. stoletje, tj. čas od leta 1701, pa vse do ustanovitve apostolskega vikariata v Gorici leta 1749.

*Grb oglejskega patriarhata*⁴

Z objavo te knjige izpolnjujemo tudi obljubo izpred nekaj let. Obenem vseh pet knjig skupaj predstavlja tudi zaključek projekta, katerega namen je bil objava ordinacijskih podatkov za čim širše slovensko ozemlje v prelomnem 18. stoletju.³ To nam je, hvala Bogu, tudi uspelo. S tem zapolnjujemo vrzel osnovnih podatkov o duhovnikih, ki so vzgajali, izobraževali, hrabrili in bodrili naše prednike ter jih ob koncu življenja tudi pospremili v onstranstvo, kjer naj bi jih čakalo večno življenje.

OGLEJSKI PATRIARHAT V 18. STOLETJU. ZATON IN UKINITEV TISOČLETNE NADŠKOFIJE

V 18. stoletju se je življenje v Evropi, kjer so prebivalci do tedaj živeli v dokaj predvidljivem svetu, v marsičem postavilo na glavo. Nekateri prelomni dogodki in misleci, ki so živeli v tem času, so trajno zaznamovali svet, ki ga poznamo danes. Glede na obravnavano temo, tj. oglejski patriarhat, se omejimo na ključne dogodke, ki so zaznamovali cerkveno organizacijo večjega dela slovenskega prostora v 18. stoletju.⁶

Škofija, ki je v 18. stoletju še vedno obsegala največji del današnjega slovenskega ozemlja (do reke Drave na severu oziroma severovzhodu ter je obsegala tudi celotno Belo krajino na jugu), je bil starodavni oglejski patriarhat s sedežem v furlanskem Vidmu. Njegovo ozemlje je delila ljubljanska škofija s sedežem v Ljubljani, ki pa ni imela sklenjenega območja, temveč je bila razdeljena na majhne »otoke« v treh deželah: na Kranjskem, Štajerskem in Koroškem. Čisto na zahodu, ob obali in v zaledju, sta se raztezali majhni obalni škofiji Koper in Trst.⁷

Da organiziranost cerkvene uprave na našem ozemlju ni bila idealna, so se zavedali tako na Dunaju kot tudi v Vidmu. Kljub vsemu je bilo rivalstvo med dvema katoliškima vladarjema, habsburškim deželnim knezom oziroma cesarjem in beneškim dožem, preveliko, da bi se lahko stanje popravilo na bolje. Oglejski patriarhi vse od izrecne prepovedi Ferdinanda II. (1619–1637) leta 1628 niso imeli več vstopa na ozemlje svoje škofije, ki je ležalo vzhodno od Vidma na ozemlju cesarstva, ki so ga sami poimenovali *a parte Imperii*. Zadnji oglejski patriarh, natančneje imenovani oglejski patriarh, ki se je pred prepovedjo mudil na tem ozemlju, je bil Frančišek Barbaro (1593–1616). Problem večdesetletne odsotnosti rezidenčnega škofa na Kranjskem sicer ni bil tako pro-

blematičen kot npr. na Štajerskem in še zlasti na Koroškem,⁸ vseeno pa ni bil nezanimljiv. Določena opravila so v imenu patriarha sicer lahko opravljali arhidiaconi, čisto vseh pa niso mogli. Za te primere so oglejski patriarhi pooblašali druge škofo s cesarskega ozemlja (največkrat so te naloge vršili škofi iz istrske škofije Pičen), za kar so praviloma pridobili tudi soglasje dunajskih nuncijev.

Slovensko sodobno zgodovinopisje se zaenkrat še ni temeljiteje posvetilo temi, ki je v tujini opredeljena kot »oglejsko vprašanje« (*l'affare di Aquileia, la questione aquileiese*). Obstaja sicer kar nekaj člankov na to temo, vendar pa »oglejsko vprašanje« do sedaj pri nas še ni bilo obravnavano celostno, z več različnih vidikov, interdisciplinarno, s podrobno preučitvijo domačih in tujih virov (še posebej diplomatskih) in literature ter ob sodelovanju domačih in tujih strokovnjakov, specialistov za to obdobje.

Proces propadanja oglejskega patriarhata se je pričel že leta 1420 z beneško osvojitvijo Furlanije, ko je oglejskemu patriarhu ostala samo še duhovna oblast nad škofijo, nekoliko bolj pa se je intenziviral v začetku 16. stoletja, v času beneško-avstrijskih vojn. Vrh je proces dosegel med letoma 1748 in 1751: predzadnji korak do ukinitve patriarhata predstavlja ustanovitev apostolskega vikariata s sedežem v Gorici leta 1749, zadnje dejanje oziroma pokop živega mrtveca pa predstavlja bula papeža Benedikta XIV. (1740–1758) *Iniuncta nobis* z začetka julija 1751. Pokritje politične in cerkvene meje je pomenilo pomemben korak naprej k nastanku moderne države 18. stoletja.⁹

Kot ugotavlja dr. Simone Melchiorre, je ukinitve oglejskega patriarhata na površje naplavilo razmišljanje o njegovem pomenu in obenem obudila spomin nanj, kar je svojevrsten paradoks. Pred ukinitvijo so se ga vsi želeli znebiti, po njej pa se spomin nanj vedno znova in znova obuja in ohranja.¹⁰

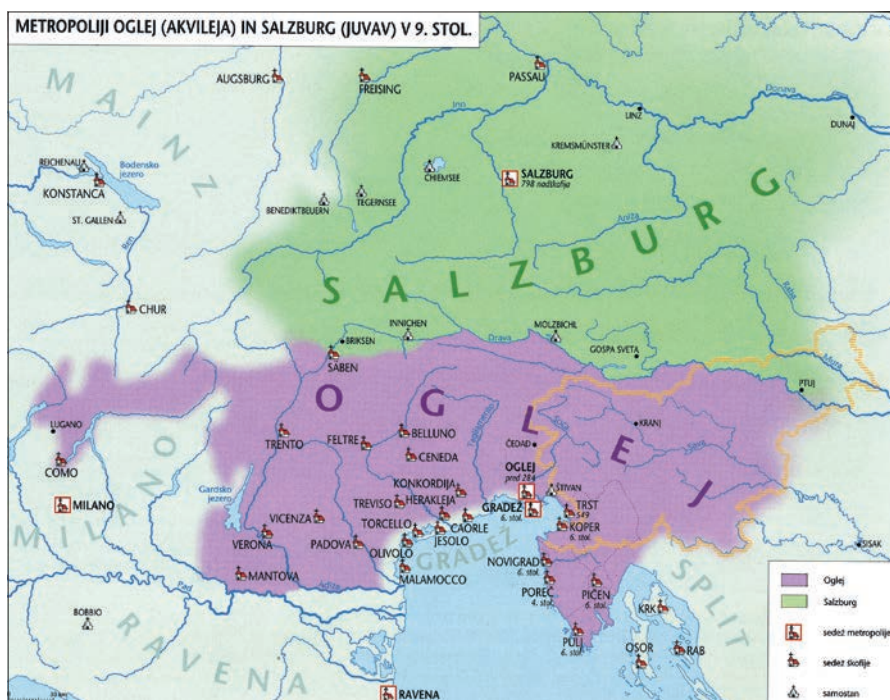

⁶ Omejili se bomo na slovensko ozemlje do reke Drave na vzhodu, cerkvene organizacije v Prekmurju se ne bomo dotikali.

⁷ Oglejski patriarhat je ozemeljsko obsegal Furlanijo, Karnijo, Kadore (Cadore), južni del Koroške, Kranjsko in slovenski (južni) del Štajerske.

Konec 40. let 18. stoletja, torej v letih pred ukinitvijo, je bil oglejski patriarhat še vedno največja škofija na stari celini. Njegova posebnost je bila razdeljenost ozemlja med dve državi (Sveto rimsko cesarstvo in Republiko sv. Marka v Benetkah), v njem so se mešale tri kulture (romanska, germanska in slovanska), imel je tudi številne sufraganske škofije, ki so se raztezale vse od Coma v Lombardiji do Kvarnerja.¹³

Oglejski patriarhat so imeli namen ukiniti že Benečani leta 1465, naslov patriarha pa prenesti na patriarha v Gradež (Grado), vendar se stvari niso odvile po beneških željah. *Serenissimi* je uspelo nekaj drugega; sčasoma si je s tihim soglasjem Svetega sedeža pridobila izključno pravico do imenovanja oglejskega patriarha. Benečani so to dosegli na precej zviten način, in sicer z imenovanjem koadjutorjev, torej škofov s pravico nasledstva. Mesto koadjutorjev so zasedali izključno člani beneških patricijskih družin. Vsa prizadevanja dunajskega dvora, da bi si imenovanje oglejskega patriarha izmenično delili, so zato propadla že v osnovi,¹⁴ in to kljub temu, da je wormski edikt iz leta 1521 Habsburžanom priznal pravice nad Oglejem (kot krajem).¹⁵ Logično je bilo, da bo zaradi tega prej ali slej prišlo do poka na relaciji Dunaj-Benetke. Leta 1628 je po šestih letih škofovanja umrl patriarh Anton (Antonio) IV. Grimani (1622–1628). Njegovo mesto je zasedel Agostino Gradenigo, škof v kraju Feltre in od 20. marca 1627 tudi škof koadjutor v Ogleju. To, da je bil Gradenigo potrjen za novega patriarha brez vednosti cesarja Ferdinanda II., ki je na nesprejemljivo prakso opozarjal že nekaj časa, naj bi bila kaplja čez rob. Cesar se je odzval »nenavadno ostro«. Izdal je dekret, s katerim je svojim podanikom ne glede na njihov stan prepovedal priznati novega patriarha. Tistim, ki tega ne bi upoštevali, je zagrozil s strogimi kaznimi: duhovniki naj bi bili deležni odvzema beneficijev, laiki pa bi šli v zapor ali pa bi jim bilo od-

vzeto premoženje. Cesar se je v zapleteni politični situaciji odzval dokaj odločno. To je bil čas, ko je bilo vprašanje izгона protestantskega plemstva na vrhuncu in je deželno knežja protireformacija dosegala svoj vrh. S problemom nasledstva, tokrat na politični ravni, se je Ferdinand II. skupaj s Španci v istem času srečeval tudi v vojvodini Mantovi, kjer so mu nasproti stali Benečani, Francozi in Sveti sedež, zato je moral reagirati ostro.¹⁶

Ta dekret pa ni bil edini take vsebine. Dunajski dvor je vsebinsko sorodne dekrete izdal tudi v letih 1640, 1655, 1658, 1719 in 1736. Pogostost teh odlokov kaže na to, da je bilo njihovo spoštovanje na precej trhljih nogah. Če bi odloke dejansko upoštevali, potem kandidati za prejem redov posvečenja ne bi več hodili v Videm, temveč bi jih morali prejeti drugje; duhovniki, prezentirani na beneficije, ne bi prejeli zahtevane potrditve oglejskega patriarha; v spornih zadevah se ne bi več obračali oziroma odzivali na patriarhovo sodišče. Kar se tiče prvega, prepoved prihajanja v Videm zagotovo ni bila spoštovana v celoti. Resda je na podlagi doslej pregledanega arhivskega gradiva v Vidmu moč trditi, da se je število ordinandov v času izdaje posameznega dekreta zmanjšalo, z leti pa se je njihovo število počasi vrnilo v stare tirnice.¹⁷

V 15. stoletju in tudi kasneje, še posebej v času protireformacije in ponovni utrditvi habsburških dežel v katoliški veri, so se pojavili predlogi za reorganizacijo škofijske mreže na habsburškem ozemlju patriarhata. Predlagali so različne nove sedeže (Beljak, Celje, Dobro vas, Gorico, Kranj, Ljubljano, Novo mesto, Velikovec itd.), največkrat pa je bila omenjena ustanovitev škofije v Gorici (cesar Ferdinand I. leta 1560, nadvojvoda Karel II. in graški nuncij Giovanni Andrea Caligari sredi 80. let 16. stoletja, cesar Ferdinand II. leta 1598 in v 20. letih 17. stoletja, cesar Leopold I. leta 1690 itd.). Običajno so ustanovitev nove škofije utemeljevali z veliko oddaljenostjo vernikov od škofa ordinarija, pa tudi z različnimi navadami in jeziki vernikov, ki jih patriarhi niso obvladali. Ti predlogi so bili običajno tudi pospremljeni z opozorilom, da je državna meja med cesarstvom in Be-

neško republiko oglejski patriarhat zarezala na dva neenako velika dela, kar preprečuje škofu reden stik s podrejeno duhovščino in verniki.¹⁸

»Oglejsko vprašanje« se je pričelo intenzivneje reševati po letu 1740, ko je cesarja Karla VI. (1711–1740) nasledila hči Marija Terezija (1740–1780). Njen cilj je bil dokončno uresničiti dolgotrajno željo Habsburžanov, da bi v okviru cesarstva ob južni meji imperija imeli metropolita, ki bi bil pod njihovo kontrolo.¹⁹

Na podlagi tihe diplomacije, ki ji je moč slediti v obsežnem in doslej praktično neraziskanem gradivu cesarskega veleposlaništva pri Svetem sedežu,²⁰ so se prvi opaznejši premiki (kljub beneškemu odporu) pričeli dogajati v letu 1742. Tega leta se je namreč ogrski prominister in cesarski veleposlanik pri Svetem sedežu Jožef Marija grof Thun pl. Hohenstein v Rimu dogovoril za ustanovitev apostolskega vikariata, ki bi imel sedež v Gorici, deloval pa bi v okviru oglejskega patriarhata. Dogovorili so se tudi že za primerno osebo, ki bi zasedla mesto novega apostolskega vikarja. Marija Terezija je papežu v potrditev predlagala kapucina p. Avgušтина Marijo Neuronija iz Lugana. Papež je breve o imenovanju izdal naslednje leto, vendar pa zaradi spora o pravici do imenovanja apostolskega vikarja (sporna je bila beseda *nominamus*) ni bil odposlan. Papež je namreč vztrajal, da ta pravica pripada izključno njemu, Dunaj pa je bil nasprotnega mnenja. Končno je zmaga rimska volja, vendar pa je Marija Terezija sebi in naslednikom priborila pravico do predlaganja ustreznega kandidata.

Sledilo je nekajletno mirovanje reševanja tega vprašanja, saj je bilo treba najprej končati avstrijsko nasledstveno vojno. Kljub temu pa tiha diplomacija v ozadju ni prenehala z delom. Konec leta 1747 je deželna kneginja v Rim poslala predlog, naj papež za apostolskega vikarja v Gorici imenuje Karla Mihaela grofa Attemsa, stolnega kanonika v Baslu. Republika sv. Marka je seveda zagnala vik in krik. V Rim so poslali izkušenega diplomata Francesca Foscarija, da bi preprečil veliki avstrijs-

ki projekt. Dunajska vlada pa je sredi naslednjega leta, v času, ko se je čakalo na papeško potrditev Attemsa, Svetemu sedežu predlagala, da v Gorici ustanovi apostolski vikariat za avstrijski del oglejskega patriarhata ali pa samostojno škofijo. Ker je bil prvi predlog sprejemljivejši za Sveti sedež, še bolj pa za Benetke, je bil seveda sprejet ta. Po rešitvi dodatnih rimskih zahtev (financiranje nove ustanove) je papež končno le popustil in to kljub enormnemu beneškemu pritisku. Predzadnji dan novembra 1749 je dal objaviti breve *Omnium Ecclesiarum sollicitudinem*, s katerim je za avstrijski del oglejskega patriarhata ustanovil apostolski vikariat s sedežem v Gorici,²¹ samega apostolskega vikarja pa zaradi beneških pritiskov (nasprotovali so Republika, oglejski patriarh, pa tudi 10 kardinalov) še ni imenoval. To je storil šele 27. junija 1750 z brevom *Postquam per alias*.²² Papež je Karla Mihaela grofa Attemsa imenoval za naslovnega menitskega škofa (Mennith v Arabiji), čez dobre tri tedne pa za naslovnega škofa v Pergamonu, saj je bilo naknadno ugotovljeno, da je bila prvotna naslovna škofija že zasedena. Novi apostolski vikar je imel vse dolžnosti rezidencialnega škofa, podrejen pa je bil oglejskemu patriarhu kot ordinariju.

Benečani so se na novo situacijo odzvali burno: na zahtevo senata so prekinili diplomatske odnose s Svetim sedežem, odpoklicali svojega veleposlanika iz Rima, papeškega nuncija v Benetkah pa razglasili za nezaželeno osebo.²³

Dunajska vlada je bila nad uspehom navdušena. Na prigovarjanje svojega rimskega veleposlanika je bila odločena, da »oglejski problem« dokončno pospravi z mize. Prav kmalu je bil zato papež seznanjen z zahtevo, da se oglejski patriarhat dokončno ukine, namesto njega pa ustanovi dve (nad)škofiji, eno za beneški del v Vidmu, drugo pa za avstrijski del v Gorici. Kljub beneškemu nasprotovanju Habsburžani tokrat niso popustili, saj je bila prednost na njihovi strani. Benečani so se s porazom sprijaznili šele, ko so uvideli, da so doživeli politični poraz in bili izpostavljeni še močnemu mednarodnemu pritisku. Beneška re-

publika je bila v 18. stoletju na splošno vse šibkejša. Januarja 1751 so zato ponovno navezali diplomatske stike z Rimom, popustil pa je tudi Dunaj, saj so se dokončno odpovedali zahtevi po prenosu sedeža patriarhata v Gorico in naslovu patriarha za goriskega škofa.

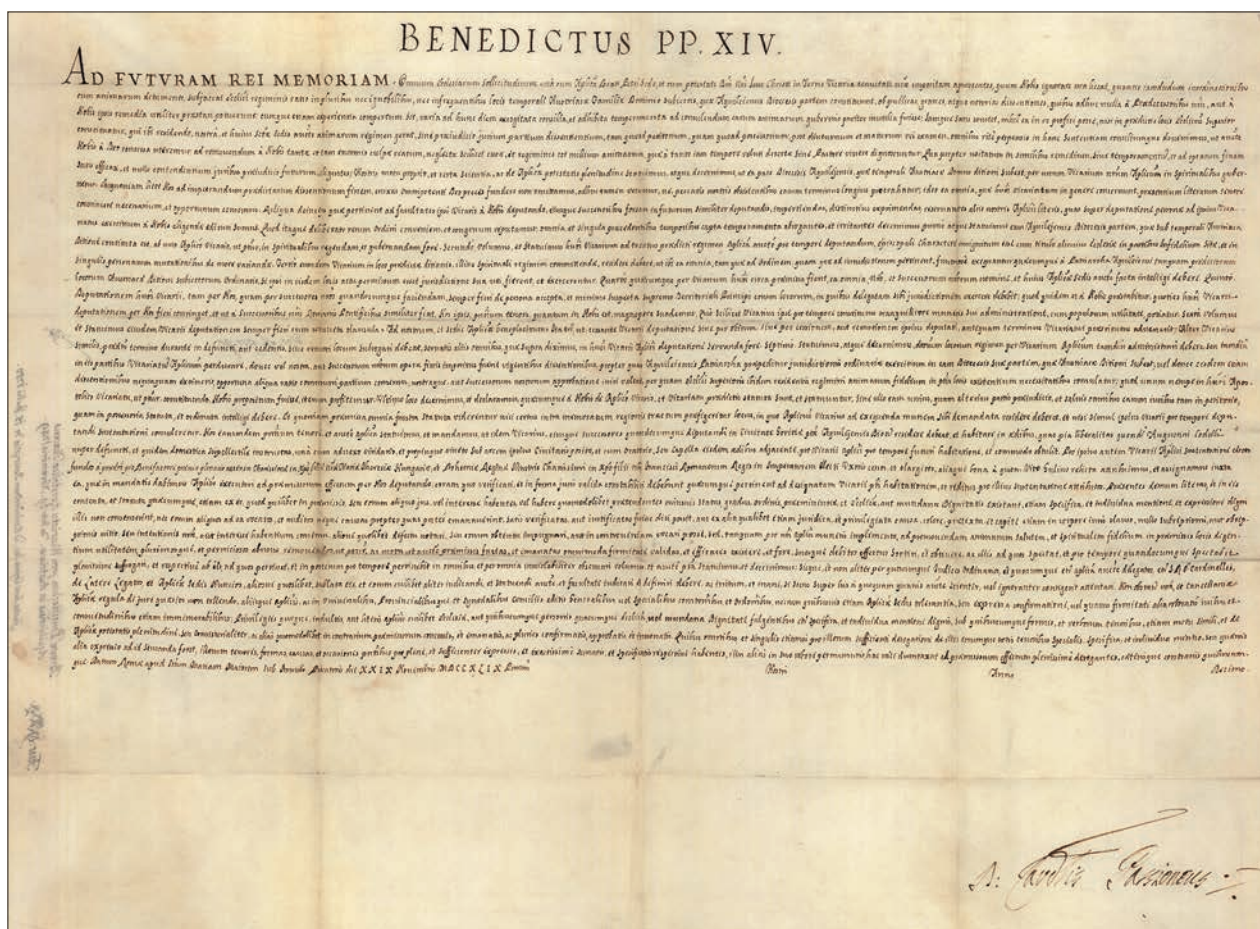

Že februarja 1751 je prišlo na Dunaju do neposrednih pogajanj med dunajsko in beneško vlado (patriarh je bil pri tem popolnoma izključen), ki pa so se v nasprotju s pričakovanji končala zelo hitro, že po mesecu dni. Sporazum, podpisan 21. marca 1751, je predvidel ukinitvev oglejskega pa-

triarhata in ustanovitev dveh (nad)škofij – v Vidmu in Gorici. Sporazum je predvidel tudi potek meje med novima škofijama: ta naj bi postala državna meja med Republiko in cesarstvom.

Usoda tisočletnega oglejskega patriarhata je bila tako zapečaten. Starodavna ustanova je svoj konec doživela 6. julija 1751, ko je papež Benedikt XIV. razglasil bulo *Iniuncta nobis* in s tem ukinil oglejski patriarhat.²⁵ Svojo odločitev je utemeljil na dejstvu, da bo s tem najbolj poskrbljeno za vernike, lažje pa bo tudi ohranjati mir med dvema katoliškima knezoma (med beneškim dožem in habsburškim cesarjem). Papež je določil, da v

Vidmu in Gorici vzpostavita nadškofiji (apostolski vikariat se pri tem preoblikuje v nadškofijo). Oglejskemu patriarhu, kardinalu Danijelu Delfinu, pa je dovolil, da sme do konca življenja obdržati naslov patriarha.²⁸

Podrobnejša cerkvenoupravna struktura goriške nadškofije je bila določena z bulo *Sacrosanctae Militantis Ecclesiae* 18. aprila 1752.²⁹ Z njo je papež dotedanjega apostolskega vikarja potrdil za prvega goriškega nadškofa. Videmska nadškofija je podobno bulo dobila nekoliko kasneje. Bula *Suprema dispositione* je bila izdana 19. januarja 1753.³⁰

PODELJEVALCI KLERIŠKIH REDOV

V času, ki ga obravnava pričujoča knjiga, sta mesto škofa v starodavnem oglejskem patriarhatu s sedežem v furlanskem Vidmu zasedali dve osebi, obe iz beneške rodbine Delfin: Dionizij (Dionisio Dolfino) (1699–1734) in njegov nečak Danijel (Daniele Dolfino) (1734–1752). Kleriške redove sta podeljevala tudi dva oglejska sufragana, Nikolaj Gabrieli, škof v Novigradu (1684–1717) in Kajetan Zuanelli, škof v Bellunu (1730–1736).³¹

Dionizij DELFIN

oglejski patriarh (1699–1734)

Dionizij Delfin (Dionisio Dolfino) se je rodil leta 1663 v Benetkah v znani beneški patricijski rodbini. Tako kot njegovi rojstni podatki so skopi tudi podatki o njegovem šolanju, poleg tega pa so tudi precej nenatančni. Zagotovo se je šolal pri jezuitih v rodnem mestu, kasneje pa je dolgo časa bival v Parizu, kjer naj bi si izpopolnil pravno in

literarno izobrazbo. 8. februarja 1698 je bil imenovan za naslovnega loreatskega škofa (*Loriensis*, Lorea v Arabiji) in koadjutorja³³ svojemu stricu, oglejskemu patriarhu Janezu VII. Delfinu (1658–1699).³⁴ Škofovsko posvečenje mu je v Rimu podelil padovanski škof in kardinal Jurij Cornaro (Cornelio) 4. maja 1698. Svojega strica na mestu oglejskega patriarha je nasledil že čez dobra dva meseca po imenovanju, 20. julija 1698.

Patriarh Dionizij je že na začetku svoje škofovske poti veliko pozornost namenil pastoralni dejavnosti, zato je opravil podrobno vizitacijo patriarhata pod oblastjo beneškega doža. Poleg tega je zaslužen tudi za sklic pomembne sinode, ki se je odvila v cerkvi sv. Antona³⁵ v Vidmu maja leta 1703. Na njej je odobril konstitucije »*Costituzioni del Patriarcato di Aquileia*«, s katerimi je predvideval uporabo furlanskega jezika tako pri pridi-gah kot tudi pri poučevanju krščanskega nauka. Poleg drugih ukrepov velja omeniti uvedbo nekaterih novih praznikov, s katerimi je zadovoljil potrebe ljudske pobožnosti, vpeljavo poučevanja krščanskega nauka v šolah in določitev konstitucij za duhovščino, s katerimi bi duhovnike privedel nazaj na prava moralna pota.

V mestu Videm je med letoma 1708 in 1725 predelal škofijsko palačo, saj je spoznal, da bi mesto lahko postalo novo stičišče med Benetkami in Dunajem. Okrasitev nekaterih sob (strop velikega stopnišča, sodne dvorane in stene galerije gostov) je zaupal slikarju Giambattistu Tiepolu.³⁶

Pomemben pečat je pustil tudi na kulturnem področju, saj je patriarhalno knjižnico leta 1711 odprl javnosti; mesto do tedaj namreč ni imelo knjižnice, odprte za javnost.³⁷ Bogat knjižnični

³¹ To sicer ne pomeni, da kleriških redov niso podeljevali tudi drugi oglejski sufragani. Ti štirje so pač izrecno omenjeni v pregledanem arhivskem gradivu.

fond (preko 9.000 kosov), ki je bil zelo občudovan in cenjen, ter prenova škofovske palače naj bi bila garant za pridobitev kardinalskega naslova, ki si ga je patriarh Dionizij tako želel, vendar ga ni nikoli dobil. Leta 1722 je dal razširiti in preoblikovati tudi semenišče, poleg tega pa je preoblikoval tudi študijski program. Vse njegove reforme so stremele k povečanju števila novih kandidatov za semenišče, saj je primanjkovalo duhovnikov. Leta 1731 je ustanovil še Akademijo znanosti (Accademia di Scienze), kamor naj bi se vključevali znanstveniki iz Furlanije, in sicer tako posvečeni kot tudi laiki. Cilj te akademije je bil tudi pospeševanje in promocija lokalnih zgodovinskih študij.

Patriarh Dionizij Delfin se je vse življenje srečeval z nezadovoljstvom Goričanov, ki so si dolgo prizadevali, da bi v Gorici ustanovili svojo škofijo, intenzivneje v drugi polovici 16. in nato ponovno v 80. letih 17. stoletja.³⁸ Leta 1705 se je z dunajskim dvorom zapletel v spor glede jurisdikcije nad benediktinsko opatijo v Rožacu (Rosazzo), potem ko je leto prej umrl dotedanji opat, Danijel Marko Delfin, kardinal in škof v Brescii (1698–1704), in je bila opatija začasno nezasedena. Vrhunec napetosti je sledil leta 1719 s t. i. graškim ediktom cesarja Karla VI. (1711–1740). Ta je oglejskim patriarhom ponovno prepovedal vstop na cesarski del patriarhata, habsburškim podanikom pa prepovedal, da bi priznavali oblast oglejskega patriarha na cesarskem ozemlju patriarhata.

V zadnjem obdobju Dionizijevega življenja so bile govorice in želje po ukinitvi oglejskega patriarhata vedno pogostejše, vendar pa vanje sam ni bil nikoli neposredno vključen. Pred smrtjo se je izkazal še s financiranjem oratorija sv. Filipa Nerija (oratorijancev oziroma t. i. očetov Filipinov) v Vidmu in ustanovitvijo samostana salezijanskih redovnic v kraju San Vito al Tagliamento.³⁹ V tem kraju si je ustvaril tudi poletno rezidenco,

kjer je umrl 3. avgusta 1734. Pokopan je v Vidmu, v grobnici cerkve sv. Antona ob škofijski palači, v cerkvi, katere pročelje je dal preurediti leto dni pred svojo smrtjo.⁴⁰

Danijel II. DELFIN

oglejski patriarh (1734–1752)

videmski nadškof (1752–1762)

kardinal (1747–1762)

Danijel Delfin (Daniele Dolfino) se je rodil 22. januarja 1688 v Benetkah. Sprva se je šolal v rojstnem mestu, nato pa je šolanje nadaljeval v Parmi, kjer naj bi ga uvedli v politično kariero. Z 21 leti je že postal član beneškega velikega sveta (Maggior Consiglio), vendar mu usoda ni namenila po-

litične, temveč cerkveno kariero. Decembra 1714 je dobil možnost, da se poda v cerkvene vode. Papež Klemen XI. (1700–1721) ga je šestega decembra 1714 imenoval za naslovnega aureliopolitanskega škofa (*Aureliopolis* v Aziji) in škofa koadjutorja s pravico nasledstva za stricem Dionizijem Delfinom na mestu oglejskega patriarha.⁴² Leto dni po škofovski posvetitvi (posvečen je bil sedmega aprila 1715) je dosegel bakalavreat na univerzi v Padovi. Leta 1717 je bil imenovan tudi za opata dveh benediktinskih opatij: v Možacu (Moggia) in Rožacu (Rosazzo), vteleseni (inkorporirani) oglejski škofijski menzi. S tem si je znatno povečal svoje prihodke. V času koadjutorstva je pomagal stricu pri pastoralnih dejavnostih; tako je bil vpet v delo župnij na ozemlju med Benetkami in Vidmom. Mesto rezidencialnega škofa, oglejskega patriarha, je prevzel sredi avgusta 1734, po stričevi smrti.⁴³

Bil je predan Marijin častilec. Kot rečeno, je veliko pozornosti namenil pastoralnemu življenju po župnijah v furlanskem delu svoje škofije, ki jih je pogosto obiskoval in vizitiral. Omeniti velja videmsko sinodo, ki jo je organiziral leta 1740. Pospesheval je češčenje kulta blaženega Bertranda Oglejskega ter sv. Mohorja in Fortunata, zavetnikov oglejskega patriarhata, ki so bili zelo priljubljeni pri vernikih. Veliko pozornost je posvečal ustanovam, ki so podpirale preživljanje in izobraževanje revnih. Kot njegov stric je bil tudi sam dejaven na kulturnem področju, pri čemer pa kakšnih večjih sledi, npr. pri dopolnjevanju knjižničnega gradiva, ni zapustil. Leta 1745 je ustanovil cerkveno akademijo (*Accademia ecclesiastica*), ki bi morala nadaljevati delo patriarha Dionizija, vendar zaradi mlačnega dela ni upravičila svoje ustanovitve. Patriarh Danijel pa se je izkazal kot naročnik umetniških del. Naročil je izdelavo več znamenitih oltarjev, zgradil je škofijski arhiv, leta 1744 pa je naročil gradnjo stolnice (katedrale) v kraju San Vito al Tagliamento.⁴⁴ V času

škofovanja je objavil petindvajset homilij in tudi nekaj pastirskih pisem.

Papež Benedikt XIV. (1740–1758) ga je na svojem drugem konzistoriju 10. aprila 1747 povzdignil med cerkvene kneze, saj mu je podelil kardinalski klobuk. 20. novembra 1747 ga je imenoval za kardinala duhovnika in mu podelil cerkev sv. Marije nad Minervo (s. Maria supra Minervam), 19. julija 1758 pa za kardinala duhovnika sv. Marka.⁴⁵

V času škofovanja na mestu oglejskega patriarha se je problem upravljanja avstrijskih ozemelj oglejskega patriarhata dokončno razplamtel. Da je bilo versko stanje nevzdržno, so se zavedali tako v Vidmu in Rimu kot tudi na Dunaju. Dunajski veleposlanik pri Svetem sedežu in škof v Nitri Janez Ernest Emanuel Jožef pl. Harrach je leta 1737 zapisal, da »ovce ne slišijo več glasu pastirja in ta jih ne more obiskati ...«. ⁴⁶ Papež je bil o stanju v oglejskem patriarhatu glede na številna poročila zelo dobro obveščen, vendar pa je bil vpliv *Serenissime* na papeškem dvoru prevelik, da bi lahko problem uspešno rešil v obojestransko korist in zadovoljstvo. Beneška republika ni mogla kar tako prepustiti vpliva svojim dednim sovražnikom Habsburžanom in jim dovoliti, da bi se sprehajali po njenem »vrtu«. ⁴⁷ Ko je papež 6. julija 1751 ukinil oglejski patriarhat, je namesto njega ustanovil dve nadškofiji: v Gorici za ozemlje cesarstva, v Vidmu pa za ozemlje pod beneškim nadzorom. Kardinal Danijel Delfin, ki se je ukinitvi oglejskega patriarhata dolgo časa upiral, je po dogovoru do konca življenja smel obdržati ime in naslov oglejskega patriarha ter tudi s tem nazivom povezane posebne pravice. Uradno je papež kardinala Delfina za prvega videmskega nadškofa imenoval z bulo *Suprema dispo sitione* 19. januarja 1753. Z njo je poleg tega podrobneje določil cerkvenoupravno strukturo nove nadškofije.

Videmski nadškof in kardinal Danijel Delfin je umrl v Vidmu 13. marca 1762 ob deseti uri do-

Nikolaj IV. GABRIEL(L)I *novigrajski škof (1684–1717)*

Nikolaj Gabrieli (Nicolò Gabriel(l)i) je bil rojen v kraju Rivolto v bližini Vidma 31. januarja 1645. Na rimski univerzi Sapienza je študiral civilno in cerkveno pravo, kjer je iz obojega prava tudi doktoriral 2. junija 1684. Mašniško posvečenje je prejel 21. septembra 1670. Med letoma 1668 in 1684 je zasedal mesto stolnega kanonika v Ogleju. V tej službi je tudi dočakal papeževo imenovanje

za škofa v Novigradu. Škofovsko posvečenje mu je v Rimu podelil kardinal Aleksander Crescenzi 25. junija 1684. Službo novigrajskega škofa je opravljal vse do odstopa 12. aprila 1717.⁵⁰

Kajetan Zuanelli (Caietanus/Gaetano Zuanelli) je bil rojen v Benetkah 29. oktobra 1673. Študiral je pravo in 25. avgusta 1695 na univerzi v Padovi dosegel doktorat iz civilnega in cerkvenega prava. Mašniško posvečenje je prejel 14. aprila 1697. Bil je zelo priljubljen pridigar; deloval je na dunajskem, beneškem, parmskem, genovskem, torinškem, neapeljskem in rimskem dvoru. V škofiji Briksen naj bi opravljal tudi službo arhidiakona. V začetku decembra 1730 ga je papež Klemen XII. (1730–1740) imenoval za škofa v Bellunu (*Bellunensis*), sufragana oglejskega patriarha. ORDINACIJSKI ZAPISNIKI 1701–1749

Ordinacijski zapisniki oglejskega patriarhata za slovensko ozemlje v 18. stoletju (1701–1749) se hranijo v škofijskem arhivu v Vidmu v seriji *Ordinazioni sacre* v škatlah (kartonih oziroma bustah) 634–639. Vsak karton posebej vsebuje sezname preizkusov znanja in posvečenj po posameznih letih, ti sezname pa so različno ohranjeni. Nekateri od njih so restavrirani, nekateri pa so bolj v slabem stanju. Glede na pregledano količino gradiva je mogoče reči, da gradivo ni ohranjeno v celoti oziroma da je ohranjeno pomanjkljivo. Seznamov žal niso zvezali v knjige, kot so to storili v Gorici in Ljubljani, tako da je verjetnost za izgubo kake pole toliko večja. Velikokrat oviro pri natančnem dešifriranju imen in priimkov predstavlja tudi zelo grda in drobno pisana pisava. Dodatno oviro predstavlja tudi romanski stil pisave, ki se nekoliko razlikuje od nemškega, saj smo tega bolj vajeni.

Za boljši pregled si natančneje pogledjmo ordinacijske zapisnike po posameznih »kartonih« (bustah). V »kartonu« 634 so hranjeni ordinacijski protokoli za leta 1700 do 1711. Njihova ohranjenost je dobra. Karton 635 vsebuje ordinacijske zapisnike za devet let, tj. za leta 1712 do 1720. Naslednji karton (636) je vsebinsko bolj pester. Vseboval naj bi ordinacijske podatke za leta 1717–1741, dejansko pa jih le do leta 1729. Poleg tega je v tem »kartonu« najti še tri druge mape, ki se nanašajo na razna potrdila, dovoljenja in drugo do leta 1766, ordinacijske zapisnike, ki niso datirani, pa tudi seznam duhovnikov, posvečenih med letoma 1819 in 1929. Gradivo je dobro ohranjeno. V »kartonu« 637 so ohranjeni ordinacijski zapisniki za leta 1721 do 1734. Tudi ti so v dobrem stanju. Naslednji »karton« (638) hrani ordinacijske zapisnike za leta 1735–1745 in so dobro ohranjeni. »Karton« 639 pa vsebuje ordinacijske zapisnike za leta 1742–1749. Ti so najslabše ohranjeni, saj so bili v preteklosti izpostavljeni preveliki vlagi, zaradi česar je papir zelo krhek in razpadajoč.

Med obravnavanim gradivom je bilo najdenih tudi vrsto potrdil, dispenz, dimisorijskih preizkusov znanj ipd. Vsebinsko se ti dokumenti ne nanašajo na klasične ordinacijske zapisnike, so pa izjemno

zanimivi in nepoznani, zato smo se odločili, da jih kljub temu vključimo v knjigo, in sicer na konec, kjer so podatki urejeni po posameznih »kartonih«. Na tem mestu je najti tudi nekaj statističnih podatkov med letoma 1734 in 1742.

Kandidate za bodoče duhovnike so izpraševali in jim podeljevali različne stopnje posvečenj že omenjeni štirje škofje. Tako kot v preteklih štirih knjigah je tudi tokrat vsak posameznik označen z navedbo dežele, iz katere prihaja, enako je navedena župnija bivanja. Včasih je dodatno naveden tudi domači arhidiakonot. Pri večini kandidatov je navedena njihova starost. Zelo pogosto lahko sledimo študijski poti posameznika. Med kandidati za duhovnike izstopa precej takih, ki so bili zavrnjeni na preizkusih znanja. Ali je šlo v vseh primerih res za neznanje ali pa za neplačane takse, je zaradi pomanjkanja ustreznega gradiva težko reči.

Kandidati za duhovnike, ki so prihajali v Videm po prejem različnih stopenj posvečenja, so običajno vodeni v posebnih ordinacijskih zapisnikih, ločeno od kandidatov, ki so izvirali iz fur-lanskega ozemlja patriarhata. Skupno so večinoma navedeni le na dveh velikih polah, ki vsebujeta zbirni seznam kandidatov, ki so v posameznem letu prejeli nižje ali višje redove, pri čemer je treba opozoriti, da ta dva seznama navadno ne zajemata vseh kandidatov v posameznem letu. Zato je torej nujno pregledati celotno ohranjeno dokumentacijo za posamezno leto.

Knjigo smo skušali urediti kronološko od leta 1701 do leta 1749, zaradi česar je težko slediti vsebini »kartonov«. Kronološko si sledijo tudi podatki v okviru posameznega leta. Izjema so že omenjeni podatki, ki jih navajamo na koncu knjige. Vsak kandidat je praviloma predstavljen z imenom in priimkom ter župnijo rojstva oziroma bivanja. Kar se tiče podelitev miznih naslovov (*titulus mensae*), ki so kandidatom zagotavljali vir dohodka za primer, ko se ne bi mogli vzdrževati iz (podeljenih) beneficijev, so te navedbe bolj ohlapne. Običajno so mizne naslove kandidatom zagotavljala gospostva svetnih in cerkvenih ustanov, od koder so izvirali oziroma družinska (očetova) posest (*ad titulum (sui) patrimonii*), zelo redko je

navedeno drugače. V takem primeru jim je bil že vnaprej zagotovljen določen beneficij. Vsi podeljevalci kleriških redov so posameznikom te redove pogosto podeljevali tudi zunaj običajnih terminov (*extra tempora et interstitiis*), kar je vedno označeno, saj so za to prejeli posebno dovoljenje. Opozoriti velja tudi, da je med osebami s slovenskega ozemlja zelo malo takih, ki so stopile med redovnike. Še največ je kapucinov.

Kandidati za prejem kleriških redov so te največkrat prejeli v Vidmu, in sicer v cerkvi sv. Antona, opata, ki stoji ob škofijski palači. Nemalokrat se je slovesnost vršila kar v kapeli v sami škofijski palači, po enkrat pa na drugih lokacijah v mestu Videm, v samostanski cerkvi sv. Klare in cerkvi sv. Marije Magdalene na grajskem griču, kjer se je nahajal oratorij sv. Filipa Nerija. Posvetitve so se odvijale tudi v drugih krajih Furlanije. Ena izmed takih lokacij je bila npr. cerkev sv. Petra v benediktinskem samostanu v Rožacu, enkrat pa je bila za ta namen uporabljena župnijska cerkev sv. Valentina v Vidmu.⁵⁵

Pričujoča knjiga vsebuje podatke, izpisane in pridobljene do začetka leta 2020. To zagotovo ne pomeni, da novih imen in priimkov klerikov s slovenskega ozemlja za obravnavano obdobje ne bomo več odkrili. Ti bodo glede na enormno količino gradiva, ki ga hrani videmski škofijski arhiv in se nanaša na današnje slovensko ozemlje, zagotovo najdeni. Neznane in neodkrita arhivskega gradiva je žal še preveč. Prav zato v tej knjigi nismo pripravili statistike, kot je bilo običajno v prejšnjih štirih knjigah. To nalogo smo si prihranili za prihodnost.

Med ordinandi je tudi tokrat kar nekaj oseb, ki so v poznejšem času zasedle vidnejša mesta v cerkveni hierarhiji (škofje, stolni kanoniki, arhidiakoni) ali pa so bili dejavni na drugih področjih.⁵⁶ Iz postavimo zgolj nekatere:

O TRANSKRIPCII

Pri transkripciji so bila upoštevana enaka načela kot v prvem ordinacijskem protokolu goriške nadškofije, kjer so ta podrobno pojasnjena.⁷⁶

Posebej je potrebno opozoriti na jezik ordinacijskih zapisnikov. Večinoma so pisani v latinskem jeziku, mestoma tudi v italijanskem, pri čemer je treba biti še posebej pozoren na osebni slog posameznega pisarja. Eden je bil bolj več latinščine,

drugi manj, zato so zapisi odmaknjeni od slovničnih pravil, še zlasti glede rabe sklonov.

V primeru nezanesljivosti pri branju stoji beseda med poševnima črtama, npr. /anno/, če pa je besedilo poškodovano in manjka, pa smo to označili z oglatim oklepajem, v katerem stojijo tri pike [...].

Dokument z dne 11. septembra 1736, izdan v Ljubljani, s katerim je jezuit in prefekt Leopold Galler poslal oglejskemu patriarhu potrdilo o šolanju za:

- Mathias Schnidertsich, Carniolus, Bonicampensis, minoribus iam alias initiabus agens vigesimum quintum, qui theologia morali et juri canonico per duos iam annos ... navavit

Dokument z naslovom *Eorum studiosorum syllabus, qui ex caesareo etc. S. J. Goritiensi gymnasio ad examen pro ordinibus suscipiendis admitti* z dne 13. septembra 1736, izdan v Gorici, podpisan s strani Daniela Sarmeda, jezuita, profesorja in prefekta:

Pro tribus sacris ordinibus

- Joannes Baptista Vidoni, Goritiensis, ex parte Imperii, sacrorum canonum in annum tertium auditor, proborum morum, uti et boni in studiis profectus sat luculenta dedit documenta

Pro prima tonsura et quatuor minoribus ordinibus

Andreas Semen, Carniolus, Eysnarensis, Ultramontanus, logicae auditor, seminarii nostri convictor. Eluxit in illo vitae probitas, et sacramentorum frequentia cum bono in scientia, cui operam navavit, profectu.

Sequentes haudquaquam merentur seu ad examen seu ad ordines admitti

- Andreas Persa sacrorum canonum auditor, qui aperte mentitus est in examine pro ordinibus, de Tulmini, Ultramontanus, cum tamen Goritiae natus sit et educatus, e scholis nostris uno abhinc anno exclusus ob morum pravitatem, ex peculiari prorsus gratia subinde ad eas rursus admissus, nullius alias frugis, sed vagator insignis, chartifoliorum lusui impense deditus, frequens choreis interfuit et propinas adivit. Data sunt quidem eidem a me testimonia; ea tamen lege, ut alio se transferret ad studia, nec Goritię diutius cum scandalo moraretur, non vero ut testimoniorum beneficio admitteretur ad ordines suscipiendos. Hinc Andreae nullo modo suffragari debent mea testimonia.
- Josephus Fux, Carniolus, Neostadiensis, Ultramontanus, sacrorum canonum et theologiae moralis in primum annum auditor. Cętera inter vitiam, nimio potui adeo deditus est, ut fere quotidie sit ebrius. Porro cum vitio hoc per annos non paucos labore, dubio prout habitum pravum jam contraxit. Quid autem pii, et boni a tali homine sperandum?
- Joannes Baptista Zauadlau, Vertoibensis, ex parte Imperii, philosophus absolutus, vagator, nullius se diligentiae, seu profectus. Pessio fuit exemplo domesticis, aliisve. Cauponas frequentavit et lusus, ob commissum furtum fuit in carcerem coniectus.
